Content Outline

https://en.wikipedia.org/wiki/Tame_Impala#Musical_style

Project Title: Tame Impala Website

I want to build this site in multiple pages, with each briefly showcasing a different informational aspect about the band. There will be typical site navigation, but maybe in a more dynamic/unusual way than some other websites. The main bulk of the content will be the history, as well as photography.

- Home Page/Introduction: this page will introduce Tame Impala as a music project (one person while producing, a band while touring), covering its beginnings as well as its major accomplishments.
- History
- Musical Style/Influences
- Members
- Discography
- Sources
